Product Specifications

JOJOBA OIL, PRESSED NOP

CAS 61789-91-1
INCI *Simmondsia Chinensis* Oil

Origin and Production:

The Jojoba shrub (*Simmondsia chinensis*) grows in the most arid areas of the world. Argentina, Southern California, Northern Mexico, Arizona, and Israel are the main cultivation areas. It reaches a height of 3 m and forces its roots up to 9 m into the desert ground. Pressed Jojoba Oil is obtained exclusively through pressing of fresh Jojoba seeds and filtration. A golden-yellow color, mild odor and high stability expressed by the long inductive period (Rancimat test) are especially characteristic of Pressed Jojoba Oil.
