

Product Specification

Product Name **2-Chloro-4-(trifluoromethyl)pyridine**
Syn: 4-(Trifluoromethyl)-2-chloropyridine

CAS No. 81565-18-6

Structure

Mol. Formula **C₆H₃ClF₃N**

Mol. Weight 181.5

<i>Test</i>	<i>Specification</i>
-------------	----------------------

Appearance	Clear, colorless to pale yellow liquid
-------------------	---

Identify	IR
-----------------	-----------

Bp	146-147 °C (lit.)
-----------	--------------------------

Fp	127 °F
-----------	---------------

Assay (glpc)	> 98%
---------------------	-----------------

Heavy Metals	< 20 ppm
---------------------	--------------------

Moisture	< 1 %
-----------------	-----------------

Ash Content	< 0.2%
--------------------	------------------

η^{20}_D	1.4490 (lit.)
---------------------------------	----------------------

Storage: Maintain in cool, dry containment
